Weed Removal Time in Banning

(BANNING, California) - The California Department of Forestry and Fire Protection, Riverside County Fire Department, Banning Fire Services, and the City of Banning want to remind everyone that dry grass and weeds must be removed from all properties in Banning to lessen the impact of wildfire.

The goal of the Fire Department and the City is to provide an environment where people are as safe as possible from the threat of wildfire. As always, anyone who owns property within the city limits of Banning must remove the dry weeds and trash as required by City codes.

The requirement to maintain your property in a fire hazard free condition is not limited to vacant properties. All properties in the City must be maintained in a hazard free condition.

For more information regarding weed abatement requirements, please contact Banning Assistant Fire Marshall Douglas Clarke at (951) 922-3210.
